The due date for submitting this assignment has passed.	Due on 2019-03-20, 23:59 IS Fout
As per our records you have not submitted this assignment.	1 points
What is reciprocity? The probability of someone following an account	1 points Goog
The probability of an account following someone The probability of someone following me back, given that I follow that person	plus
O Both A and B No, the answer is incorrect.	
Score: 0 Accepted Answers: The probability of someone following me back, given that I follow that person	
2) In the context of spamming, which of the following are true?	1 point
Users with low indegree don't reciprocate to links from spammers Responsiveness increases with the number of followers Users with large indegree tend to follow back more All of the above	
No, the answer is incorrect. Score: 0	
Accepted Answers: All of the above	
According to Pagerank, who is the top link farmer? Britney Spears	1 point
Barack Obama UK Prime Minister	
O JetBlue Airways No, the answer is incorrect.	
Score: 0 Accepted Answers:	
Barack Obama Which of the following groups is likely to have the highest indegree on Twitter?	1 point
○ Spammers	
A randomly selected sample of users Top 100k link farmers All of the above have the same in degree on average	
No, the answer is incorrect.	
Accepted Answers: Top 100k link farmers	
Which of the following groups is likely to have the highest outdegree on Twitter?	1 point
Spammers A randomly selected sample of users	
Top 100k link farmers All of the above have the same in degree on average	
No, the answer is incorrect. Score: 0	
Accepted Answers: Top 100k link farmers	
Approximately, what is the most common indegree/outdegree ratio amongst the top link farmers?	1 point
0.5 0.5	
0.75 No, the answer is incorrect.	
Score: 0	
What is Facemail?	1 point
A clone of Facebook	r point
 A program that would show a person's face when an email is addressed to him/her. An email client for Android A program used to detect faces 	
lo, the answer is incorrect.	
Score: 0 Accepted Answers: A program that would show a person's face when an email is addressed to him/her.	
What was the main aim of Facemail?	1 point
To help users make informed decisions while sending out emails To reduce spamming	
To reduce link farming All of the above	
No, the answer is incorrect. Score: 0	
Accepted Answers: To help users make informed decisions while sending out emails	
What does IRB stand for in the context of getting the required permissions before conducting a study? Information Review Board	1 point
Institutional Review Board Internal Review Board	
Industrial Review Board lo, the answer is incorrect.	
Score: 0 Accepted Answers:	
nstitutional Review Board 0) Which of the following "nudges" were included for the experiment on Facebook?	1 point
☐ Timer nudge	
Sentiment nudge Picture nudge	
Sensitivity nudge	
No, the answer is incorrect.
